Act, which amount to \$23,000. This free gift will grow as the rate rises, and the money thus provided will meet the educational needs of the children of the poor, and the Government of the Province of Ontario, from Great Britain and from another. For initial expenses the Government will give \$10,000 to each Irish Parliament.

Ireland's contribution to Imperial relief will be fixed after a preliminary conference in June, when the Government will be given \$10,000 to each Irish Parliament. The bill comes into force by a Joint Resolution of Parliament. During the preliminary period the Imperial contribution will be paid at \$1,000,000 annually, of which 50 per cent, of \$500,000 will be paid by Southern Ireland and 41 per cent, or \$209,000, will be paid by Northern Ireland. A sum of \$1,000,000 annually has been added to Irish expenditure to cover the number of important new operations which are either already in operation or are about to be commenced. The near future, but which have not been themselves felt in the current financial year. Of this \$1,000,000, \$200,000 will be paid by Southern Ireland and \$1,000,000 by Northern Ireland. The contribution to Imperial relief will be fixed after a preliminary conference in June, when the Government will be given \$10,000 to each Irish Parliament.

Today's cable states that the Government is believed to be prepared to make some concessions in the matter of the contribution to Imperial relief as soon as the Irish Parliament is set on foot and that the amount of money Ireland will be asked to contribute will be largely spent in Ireland.

COUNTING THE DOCTORS

The Rockefeller Foundation proposes to distribute \$2,000,000 for the purpose of promoting research in Medicine. The Toronto Branch of the Foundation has an exhaustive survey showing the present location of the graduates. Various tables have been prepared showing the distribution of the graduates. According to the survey, the total number of graduates is 1,200. Of these, 1,000 are in the United States, 100 in Canada, and 100 in other countries. The survey also shows the number of graduates who are in the medical profession, and the number who are in other professions.

Of the twenty-three cities of Ontario, eleven typical instances may be found in this list: Toronto—Population, 400,000; No. of doctors, 80; percentage, 20; one doctor to 5,000.

Stratford—Population, 25,000; No. of doctors, 25; University of Toronto graduates, 10; percentage, 40; one doctor to 1,000.

EDITORIAL NOTES.

Three, three and a tier for the first time.

Prime Minister will find it safer to tread the straight and narrow path.

The police commissioners protect the pedestrians. The auto drivers can wait.

Our friend, De Vries, is not finding the highway strewn with roses down south.

St. John Williams might tell a perplexed country just how he would raise the revenue of the country.

The proposal to boost Hamilton made good by a trip to the West of our business men is a good idea if it carried out with care.

Now that a delegation of British visitors is in the city, it is a good idea to visit Toronto to investigate conditions, we may hear the truth about the country.

Canada is about to present her claim for indemnity to Germany. How much should she get? Could we make her pay the gratuity Mr. Flynn wants for the returned men?

In the Legislature yesterday the Hon. Mr. Roney challenged the Opposition to move a vote of want of confidence in the Government in connection with the stand it took on the referendum question, but the challenge was not accepted.

Last evening the Dominion Government refused to accede to the demand of the Ontario Government to the employees of the Grand Trunk Railway who were deprived of their pensions because they went on strike.

The utilization of water-power in Canada is advancing even more rapidly than in the United States.

During 1919, the installation of plants with a total of 64,000 h.p. was completed in various portions of the Dominion; the development of power under construction or in progress of installation aggregated over 370,000 h.p.

Other projects definitely completed for the near future will add 750,000 h.p.

Canada's dairy products yielded approximately \$250,000,000 in 1919. Of this amount, \$100,000,000 was received for exports. These figures constitute a record for the Canadian dairy industry.

In 1910, the total value of Canadian exports was \$1,000,000,000. The Prairie Provinces rapidly increased their production of milk and butter.

Opposing direct action, Mr. J. C. Watters, who was a fraternal delegate to the British Trades Union Congress from the Quebec convention in 1915, is speaking at a labor meeting in Halifax recently.

There are two means of settling industrial disputes. The first of these is by ballot, and the second by direct action. The latter is the more dangerous, and the one which is more likely to result in bloodshed.

The Farmers' Sun says that "Potatoes have advanced sensationally during the past week as a result of the strike which curtailed the crop of early potatoes in the South Atlantic States."

Dawson & Elliott report buying three cars recently costing about \$5 per bag, while the U. P. O. has been offered \$10 for 100 bushels of potatoes.

It is considered by the trade that potatoes will now creep comparatively high prices will the new crop comes in and this has been delayed as much as a month by severe frosts two weeks ago. But the boycott is still on.

Whatever may be the attitude of students of immigration to the incoming of Asiatics, the fact remains that the Chinese are coming in large numbers to the Chinese at least have, as compared with Europeans, certainly been less of a Canadian immigration. Figures in "A Study of Chinese Immigration" by W. A. Smith, published by the Canadian Immigration Commission, show that while, since the beginning of the present century, Canada has spent a total of \$15,238,000 on immigration and registration, the entrance of some and a quarter millions of immigrants, the 33,000 Chinese who have entered the Dominion during the same period have paid only \$1,000,000 for their registration. The head tax imposed over eighteen million dollars and nothing was spent in China for promoting immigration.

Comparatively speaking, we believe they have been less trouble than have an equal number of any other class of foreigners.

YEARS FOR JERUSALEM

Jerusalem, April 23.—The British Consulate in Jerusalem has been closed for several days by a strike of the municipal employees.

The strike is the result of a dispute over wages and conditions of work. The municipal employees demand a 10 per cent increase in wages and better working conditions.

OTHER PAPERS' VIEWS

Even of salaries.

"Mad as a Hatter" is a fine slogan. There isn't nearly enough made in Canada.

Signs of spring.

Another sign of spring is the worsted effort of young fathers to do better whether it be in baby carriage or a second hand motor car.

Knows Toronto.

"Many of the people of Toronto seem to be the shores of the Ontario." Mayor Church tells the Dominion Government. We have always thought some people in Toronto were blind to everything outside of the city.

The curious thing.

(Woodstock Sentinel-Review.)

The most noticeable thing is the very active desire in Canada this year to have daylight saving. The curious thing is that the Dominion Government has just put itself on record as opposed to the plan.

Still the leader.

Managers of the Buffalo club are both confident of a quick recovery.

No exhibition games will be indulged in until after the 15th of March, when the club will meet the Pittsburgh Pirates at the H.A.A. grounds. It was announced today by the University would be here Tuesday night, but it was decided to postpone this game until the following week. On the 15th the team will play the first game of the season. The Brants will be ready for a return to the field.

Delaware, Ohio, April 22.—Busch's crew of heart-throbbing ball-players in a practice game, winning 10-0, gave the players a chance to show. The Loslanders were full of confidence to give the players a chance to finish. They surely hit the ball in every inning except the seventh, accumulating 31 hits during the afternoon's ball festival. Wittry, who was the pitcher, pitched in the second half pitched to him in the second for a home run over left field.

Why the suspension should be handed out at this late date is a mystery. The charge laid against Johnson was committed over a year ago and only a few months ago he competed in an amateur meet at the local armories with Trivett as a spectator.

Notification of a change in the dates of the Olympic games golf tournament made at the request of the American Olympic committee, was received at the headquarters of that body to-day. The tournament will be held during the last week of June or the first week of July.

The boxing authorities in Philadelphia have decided not to change the length of the bouts from six rounds to eight. Six rounds suit the fans of that city to perfection. The Quakers know boxing and want to see all the real stars perform, but they cannot or will not pay exorbitant prices. If the length of the bouts are to be increased the stars would demand so much for their services that the promoters could not afford to put them on at the scale of prices that now prevail.

The third error of the Klein and Binkley Handicap will furnish the main event of the programme for the afternoon. It is a handicap race of the pace set by some of the short-horned champions of the world, and it is of interest as the highest handicap ever given. The horses are of all practice breeds, while brads are in temperance with the black. There are 12 horses in the race, and the 12-25 mile which goes into a fund with the same name as the race. Nicholas Bothen will try to stage a comeback. Evidently "Nick" is unknown to many city league fans but

Tigers and Westinghouse are at loggerheads just at present over the services of Thomas Henderson, leading hitter in the city league during the season of 1919 and unless men higher up step in and straighten out the situation, Henderson will leave the grandstand this summer. About one month ago Tigers were not sure of having a team and Henderson signed to play with Westinghouse. When the Tigers were able to obtain Henderson was approached and consented to play providing the Westinghouse would give him his release and this the "House" team refuse to do. Now the Tigers and Westinghouse are at ball with the Dandylites and just to get even Harry refuses to release him. Contracts must be in the hands of President Penton by Saturday night or the Tigers had best get together at once.

VETERANS GET A RESERVE.

Ottawa, April 23.—The Soldier Settlement Board announces the opening at Saskatoon of a new reserve unit, the 1st Reserve, a former Indian reservation in Saskatchewan. The district, 100 miles long and 10 miles wide, is made up of units, totalling about 8,000 acres in all, which were taken from the Indians and disposed to returned soldiers by the ballot system.

Talking of hard wallops, a veteran ring follower recently said that the hardest blow he ever saw was the one right, although he stood it with it extended, unlike most left handers. Coster was fast, clever little fellow.

When the punch Prince knocked the big fellow had stalled along with him. He was so dazed that he did not know what he was to do. He was too good natured to be a success in the ring. Until Willard came along. He was a slow and lazy in his actions, but when he lost his temper he could display a surprising amount of power.

The blow that finished Kears came like a bolt from the blue. Willard had been standing tall and straight, seven rounds when Kears slammed one home to the ribs of the big fellow. He was instantly the prisoner on Willard's face gave place to a look of intense anger.

He was a giant body and strong. His giant body and strong. He came in Willard drove his right hand into the side of the big fellow's head. Kears was the air and he almost struck a complete reverse, landing on his hands and knees on the opposite side of the ring.

At the same time the blow just as it was about to land on the chin he was caught by the arm. Willard was so quick until the first thing that hit him was the back of his head. He was so dazed that he did not know what he was to do. He was too good natured to be a success in the ring. Until Willard came along. He was a slow and lazy in his actions, but when he lost his temper he could display a surprising amount of power.

VETERANS GET A RESERVE.

Ottawa, April 23.—The Soldier Settlements board announced the opening at Saskatoon, on Tuesday of the Poorman's Reserve, a former Indian reservation in the northwest, for the use of ex-soldiers from Saskatoon. There are 23 farms, 1000 acres of land, and 1000 acres in the reserve and most of these were disposed to returned soldiers by the last act of parliament.

Falcons Meet Czecho Slovaks in First Game

Sweeden and Belgium Meet To-Night in, Opening Game

Antwerp, April 23.—Canada's hockey representatives, the Falcons, of Winnipeg, will meet the Czecho-Slovakia team in the opening round of the Olympic games hockey tournament here to-morrow night. The game will be the third of the series, contests between the two teams being scheduled for to-night and to-morrow afternoon. To-morrow night's game will be watched with particular interest, for the Canadians and Czechs were named as favorites in the betting by the Belgian hockey enthusiasts when the teams displayed their speed in the preliminary round of the tournament. The Canadians are still favorites with the majority of those who have been following the preliminary work of the teams, but the United States team appears to have replaced the Czechs as second choice with most of the experts. Six teams paired in the opening round last night's draw, with

Championship Decided Here Yesterday

The first business men's volleyball championships ever held in Canada were conducted at the local Y.M.C.A. yesterday and proved a decided success. There were eleven entries, and eight teams competed. London failed to show up, and Galt and Brantford, who had hoped to bring two teams each, brought only one. The entries were as follows:
Woodstock Y. M. C. A., Guelph Y. M. C. A., Brantford Y. M. C. A., Galt Y. M. C. A., and two teams from the local association. Toronto Central B team won the tournament. After beating Hamilton 7, in the preliminaries and Woodstock in the first round, and met their own "A" team in the semi-finals and after the hardest kind of a battle took two games out of three by the score of 15 to 12-2. The winners then met the Hamilton A team which had defeated Guelph in the first round and Galt in the second round. Both teams showed signs of nervousness when they went into the first game, but after the first few minutes this wore off and they got down to business, both games being in doubt right up to the last. Toronto took two straight games and the championship. The Hamilton B team in the preliminaries stacked up against Toronto B and won the first game by 15-4. Toronto took the second game by the same score, and won the third game.
